¿QUÉ PLANTAS
UTILIZAMOS?

A modern building facade is covered in lush green vertical gardens. The building features large, dark-framed windows that reflect the sky and surrounding environment. The greenery is dense and multi-layered, with various types of plants and vines growing on the building's exterior. In the foreground, a group of people, including children and adults, are walking on a paved sidewalk. A dark-colored SUV is parked on the street to the right. A blue parking sign with a white 'P' is visible on the sidewalk. The overall scene is bright and vibrant, showcasing a sustainable architectural design.
